

Examiner Credential Matrix

COLLECTIVE TEAM QUALIFICATIONS FOR LAW FIRMS AND LEGAL TEAMS

Our examiners hold the credentials below across computer and mobile forensics, advanced recovery, incident investigation and supporting technical disciplines.

Status All listed certifications active as of October 3, 2026

Computer examination and mobile evidence

Provider	Credential	Code	Relevance to your matter
IACIS	Certified Forensic Computer Examiner	CFCE	Computer evidence examination and reporting.
IACIS	Certified Advanced Windows Forensic Examiner	CAWFE	Advanced interpretation of Windows evidence.
IACIS	Certified Mobile Device Examiner	ICMDE	Acquisition and analysis of mobile device evidence.
Cellebrite	Certified Mobile Examiner	CCME	Mobile extraction, analysis and case reporting.
Cellebrite	Certified Recovery Specialist	CCRS	Advanced recovery from damaged or inaccessible devices.
Cellebrite	Certified Operator	CCO	Mobile device collection and extraction workflows.
Cellebrite	Certified Physical Analyst	CCPA	Interpretation and reporting of extracted mobile data.
Cellebrite	Certified Premium Operator	CCPO	Premium acquisition workflows for supported devices.
Cellebrite	Certified Logical Operator	CLO	Logical acquisition of supported mobile data.
Cellebrite	Certified Evidence Repair Technician - Forensic	CERT-F	Device repair to support authorized evidence recovery.

Credentials are held collectively across the team. Assigned examiner qualifications, tool access and technical scope are confirmed for each engagement.

Investigation and Supporting Credentials

EXAMINER CREDENTIAL MATRIX CONTINUED

Forensic analysis and acquisition

Provider	Credential	Code	Relevance to your matter
GIAC	Advanced Smartphone Forensics	GASF	Advanced smartphone artifact examination.
GIAC	Certified Incident Handler	GCIH	Incident investigation and attacker-technique analysis.
GIAC	Certified Forensic Analyst	GCFA	Advanced forensic analysis and incident reconstruction.
GIAC	Network Forensic Analyst	GNFA	Network evidence analysis and event interpretation.
GIAC	Battlefield Forensics and Acquisition	GBFA	Digital acquisition and rapid evidence triage.
Magnet	Magnet Certified Forensics Examiner	MCFE	Examination with Magnet Forensics products.
AccessData / Exterro	AccessData Certified Examiner	ACE	Forensic examination with FTK.
Grayshift / Magnet	GrayKey Certified Operator	GKO	GrayKey acquisition workflows for supported devices.
DoD	Digital Media Collector	DMC	Digital media handling and collection procedures.

Supporting technical certifications

Provider	Credential	Code	Relevance to your matter
CompTIA	A+	A+	Hardware and operating-system support.
CompTIA	Network+	Network+	Network systems and connectivity foundations.
CompTIA	Security+	Security+	Information-security and risk foundations.

Additional forensic training

FLETC SCERS; SANS digital forensics and incident response; Cellebrite CASA, chip-off, ISP and social network investigation; TeelTech advanced BGA chip-off and embedded hardware; OSForensics, Lantern and XRY courses.

Training is listed separately from awarded certifications. Credential titles follow the qualifications earned; relevance describes areas of expertise for scoping an engagement.
